PROFESSIONAL SUMMARY

I am a Full-Stack Developer passionate about continuous learning, modern software architecture, and building scalable solutions. I enjoy exploring new technologies and applying them to solve real business problems, with a strong focus on backend development, system modernization, and clean, maintainable code.

EXPERIENCE

Full-Stack Developer | PRAXYS

March 2026 – Present | Full-time

Design, development, and modernization of software solutions for the pharmaceutical sector. Leading the migration of legacy VB.NET systems to .NET 10 using a modern architecture. Building web and cross-platform applications with Flutter, creating reusable component libraries, and implementing design-token-based UI systems. Managing the development lifecycle with Azure DevOps — repositories, boards, pull requests, technical analysis, debugging, and feature development for business-critical systems.

Software Architect | Accenture / Banco Galicia

December 2024 – March 2026 | Full-time

Designed, developed, and implemented backend solutions in .NET 10 for the banking sector, including endpoint creation, transactional logic, performance optimization, and integrations with MongoDB, SQL Server, and external services. Focused on improving performance, stability, and communication between business-critical systems.

Software Developer / Technical Analyst | Accenture / Banco Galicia

November 2021 – December 2024 | Full-time

Performed functional and technical analysis of incidents related to account operations, transfers, and electronic checks. Implemented production fixes using SQL Server and Mainframe technologies. Participated in integration testing with Postman and service monitoring with Elasticsearch / Kibana, ensuring the correct execution of critical banking processes.

Full-Stack Developer | Sinergia Software

April 2021 – November 2021 | Full-time

Developed and maintained management and administration systems for SMEs using .NET and Microsoft SQL Server, working with shared databases and business-critical internal processes.

EDUCATION

High School Diploma in Economics and Administration (2016)

Technical Degree in Software Development (2019)

Instituto Superior Particular Incorporado N° 9045 "Zona Oeste"

Additional training: Udemy, Accenture, and self-directed learning.

TECHNICAL SKILLS

C# / .NET 10 | VB.NET | Flutter | Angular | MongoDB | SQL Server | Azure DevOps | REST APIs | Backend Development | System Modernization | Microservices

SOFT SKILLS

Critical Thinking | Problem-Solving | Teamwork | Knowledge Sharing | Attention to Detail | Continuous Learning | Adaptability | Time Management | Leadership

LANGUAGES

Spanish — Native

English — Advanced / C1 (Rosetta Stone assessment)
